

Timing of
Christ's Birth

Messiah Yeshua was conceived at
Hannukah 4BC

He was born at **Feast of Trumpets**
1st Tishrei 3BC

And the **Wisemen** came
25th December (Hannukah) 2BC

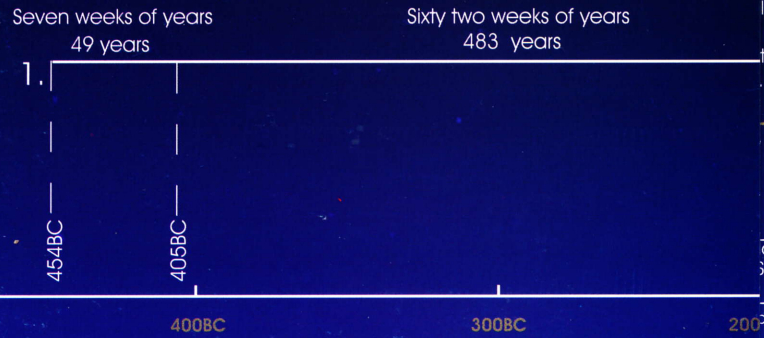

The Stars confirm this...

General signs of the coming Messiah

- 1. Daniel Prophecy 483 years to Messiah
(See white timeline below)
- 2. Supernova in head of Virgo's 'good boy'
(See gold timeline below)

These two general signs would create an expectation of the desired or anointed one's arrival. "From the commendment to restore Jerusalem (454BC) unto Messiah the prince shall be seven weeks and sixty two weeks" Daniel 9:25 This prophecy ends 29AD whilst... The New Star of Numbers 24:17 spans 125BC to 70AD4

Coma - The Desired

1st Decan of Virgo

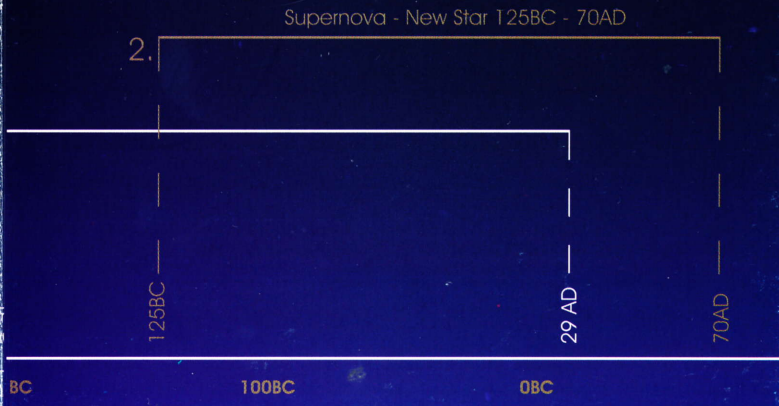

The constellation 'Coma' means 'Desired' as in Haggai 2:7... and the desire of all nations shall come..." and is represented by a seated virgin mother holding a baby boy on her lap. It is the 1st decan of Virgo. The boy's head is higher than his mother denoting the boy as the important one.

Supernova - New Star 125BC-70AD

Hippachus observed this as a new star 125BC Ptolemy (150AD) writes that it became so faint as to hardly be distinguishable'. Chinese records refer to this star as corresponding to the time of Jesus.¹

Thomas Hyde quotes Abulfaragius (Arab Christian Historian) saying that Zoraster the Persian, a pupil of Daniel predicted to the Magians that when they see a New Star appear [Balaam of Numbers 24:17] it would notify of the brth of a mysterious child, who they were to adore.²

Scripture Dates Conception

1 Chr 24:10 & Luk 1:5 Zachariah, John the Baptist's father, serves in the temple. This would be the 8th week plus one for the passover, starting from the Sabbath before 1st Nissan, 19-26th May 4BC.

Luke 1:13 Angel announces Elizabeth shall have a son and name him John.

Luke 1:26 Gabriel announces to Mary, with Elizabeth in her 6th month of pregnancy, that she will conceive by the Holy Spirit.

Haggai 2:18-19 Is an oblique reference to this conception. "From 24th of ninth month the foundation of temple laid... Is the seed yet in the barn?... and from this day I will bless.

Gematria Give Birth Date

The value of the hebrew letters (gematria) for herayon the word for pregnancy is 271. If used as days and added to 24th of ninth month, Kislev gives a birth date of 1st Tishrei, 11th September 3BC "Trumpets".

Biblecodes confirm all these dates

When did the Magi arrive?

The Magi arrive in Jerusalem and enquire of Herod. After seeking clarification from the priests, the Magi are told Bethlehem is the prophesied city. Bethlehem is directly south of Jerusalem and the Magi are delighted to find Jupiter stand over Bethlehem. The information gives us a date for the early morning astronomy reading showing Jupiter at its rising, towards the south but also standing still from the previous day's reading. In fact Jupiter has become stationary due to its annual retrograde motion.

When? - for six days around 25th December 2BC or 24th Kesliv

-HANNUKAH-

Magi find Yeshua (Jesus) as a young boy (15 months old) in a house. Magi go home a different way and Joseph, being warned in a dream, takes Mary and Yeshua to Egypt - God having given provision for the journey with the wisemen's gifts.

Above: Map of Judah showing Bethlehem south of Jerusalem

Magi

Magi were probably Zoroastrians who had studied under Daniel in the Persian courts and were expecting a king to come out of Judah. They often attended royal courts with much pomp and ceremony. They were not the Zoroastrians that had split off with and had formed the modern day practice of astrology. The two groups split about 5th Century BC

Timeline of Astronomical events

- Supernova in the head of the boy on Virgo's lap 125BC-75AD approx.
- Conjunction Venus and Jupiter 5th August 3BC
- Sign of the woman clothed with the sun with the moon at her feet about to give birth 11th September 3BC
- Triple conjunction Jupiter (King's planet) with Regulus (King's star) in Leo (Lion of Judah) 13th September 3BC 1st occurrence; 9th December 3BC 2nd; and 17th February 2BC 3rd occurrence.
- Conjunction Venus and Jupiter 17th June 2BC Extremely bright
- Various other massing of planets and conjunctions 3BC -2BC
- Jupiter stands still for 6 days on the meridian of Bethlehem from Jerusalem 25th December 2BC
- Total lunar eclipse 1st January 1BC Herod dies shortly after this.

I. Chronological Rundown

- A. Holy Spirit overshadows Mary Hanukkah 4BC
- B. Joseph and Mary journeyed to Bethlehem for the "census" (registration) at the very close of the Jewish civil year (an apt time for a registration of peoples to occur) in late Summer, 3BC, Lk.2:1. *The purpose of this mandated registration was to record an official declaration of allegiance from all of his subjects to present to Caesar Augustus in celebration of his Silver Jubilee (25th anniversary - 27 B. C. to 2 B. C.) of supreme power which coincided with the seven hundred fiftieth anniversary of the founding of Rome, and Caesar Augustus' sixtieth birthday.*
- C. Jesus was born in a stable in the early evening hours (just as the Jewish calendar advanced to 1 Tishri) of September 11, 3BC.

- D. He was circumcised on September 19, 3BC, Lk.2:21
- E. He was dedicated in the Temple on October 21, 3BC.
- F. Luke says, "*they returned to Galilee, to their own city of Nazareth*", Lk.2:39. This means that they did not go to Egypt after the birth of Christ. After all, they had only gone to Bethlehem for the "census", not to move there. So, the family returned to Nazareth in the latter part of October (during that time, they located a house to live in).
- G. Then for some reason (they probably thought that a better place to raise the Messiah would be in Jerusalem's back yard) they decided to move to Bethlehem. This could have been in the Spring or Summer of 2BC. They set up house there, Mt.2:11.
- H. Then on December 25, 2BC, also Feast of Hanukkah, when the planet Jupiter came to its stationary point in mid-Virgo and was in meridian over Bethlehem, the Magi arrived in Bethlehem bearing gifts meant for a king. Jesus is considered two years old conception Hanukkah 4BC to Magi Hanukkah 2 BCp
- I. Joseph and Mary fled to Egypt, having been forewarned by an angel in late December, 2BC.
- J. Herod killed the male children "*in Bethlehem and in all its environs, from two years old and under, according to the time which he had ascertained from the magi*", Mt.2:16. This matter of killing two-year-old children can now make good sense. If Jesus was born in September, 3BC, the slaying of infants was about 15 months after His birth. If the conception period were also considered, it comes to 24 months exactly or two years old as per Eastern understanding of a child's age.
- K. Joseph and Mary returned from Egypt, having been told that Herod was dead (Herod died in January, 1BC) and took up residence in Nazareth, Mt.2:19-23.
- L. In the spring of 11AD, Jesus visited Jerusalem with His parents and observed Passover, Lk.2:41-42.
- M. Jesus began His public ministry just after He reached the age of 31, in October or November, 29AD. This satisfies the statement in Lk.3:23 "*And when He began His ministry, Jesus Himself was **about** thirty years of age...*".

Barbara De Gilio makes an amazing connection with Haggai 2:18-19. God never adds dates for no reason. So, when the 24th of the ninth month, (Kislev), is mentioned, those who understand will recognise it as the eve of Hanukkah. There is a cryptic phrase "Is the seed yet in the barn" which along with Haggai's reference to the foundation of the temple we can understand as the conception of Jesus. She then adds the value of the Hebrew word for pregnancy to it as days i.e. 271 days and finds that the birth would be 1st Tishri, 11th Sep 3BC. Gematria of "pregnancy"

הריון herayon Strong's H2032 equals the gestational period of 271 days.: ה = 5; ר = 200; י = 10; ו = 6; ן = 50

Number of days in each Month from:4BC to 3BC

Dec. 14th was Kislev 25th - 18 days left

Jan - 31 days

Feb. - 28 days

Mar - 31 days

April - 30 days

May - 31 days

June - 30 days

July - 31 days

Aug. - 31 days

Sept. had 10 days to eve of Tishri 1

Total days = 271

Not only does Barbara De Gilio's work coincide with the stars acknowledging the birth of Jesus on 11th Sept 3BC but Roy A. Reinhold finds in his work on ELS known as BIBLECODES the announcement to Mary 22nd Kislev 4BC, the conception 24th Kislev 4BC and the birth 11th Sept 3BC <http://ad2004.com/Biblecodes/articles/yeshuabirth3.html>

How amazing! three completely different ways to calculate the birth of our Lord and each in agreement.
