

Revival, earthquakes and snow in LA: What's next?

Acts 4.31: And when they had prayed, the place where they had gathered together was shaken, and they were all filled with the Holy Spirit and began to speak the word of God with boldness.

The more I think about Azusa Street revival, way back in 1906, with the San Francisco earthquake and fire happening exactly at the same time, the more I see both these events as two sides of the same coin. After all, Exodus 40.38 teaches us that the presence of the Lord is a cloud of glory in the light (the Holy Spirit filling our brothers and sisters in Los Angeles), but a fire in the darkness (the flames engulfing the corrupt metropolis of the Bay Area).

The ingredients that we find here –revelation of the Almighty God, outpouring of His Spirit, strong shaking, fire– can be found in two different places in the Scriptures:

1° Moses receiving the law on the Mount Sinai (Exodus 19.18 and 24.16-18; note the number of persons killed in Exodus 32.28, that matches the death toll of the earthquake and fire of San Francisco).

2° The disciples receiving the Holy Spirit on the day of Pentecost (Acts 2.1-4).

According to the Hebrew chronology and the four Gospels, the gift of the Torah took place in 2448 Anno Mundi and Pentecost in 33 AD or 3793 AM. In other words, these two events are separated by 1345 years. This number is interesting because it points to the prophetic text *par excellence* of Daniel 9.25-27. Indeed, 1345 is the numerical value (NV), in verse 27, of the five words rendered by *but in the middle of the week he will put a stop to sacrifice and grain offering*, five words that lead us to the expression *on the wing of abominations*, with a NV of 796 (without the initial *vav/and*). Keep this value in mind.

But let's go back to 1906 for a little while: after the San Francisco fire died out, it seemed that everybody in the city was talking about rebuilding and testimonies describe quite an upbeat mood of the people trying to forget the ordeal they had just come through. Maybe that is the reason why the aftershock –the largest– that struck the region on April 23rd went almost unnoticed. Anyway, this 6+ magnitude shaking was the final touch putting a close to the chaos previously unleashed on the Bay Area.

Now, take the total NV of Daniel 9.25-27, 21,158, and add this number of days to April 23rd, 1906. It will take you to March 27th, 1964, the very day of the Good Friday earthquake in Alaska. Today it is still the strongest shaking recorded in the history of the USA. In spite of an extreme intensity, its death toll –131– remained thankfully low. Actually it was a warning and we are going to understand why right away.

I believe that the Good Friday earthquake was a wake-up call because of a sign from Heaven, nowadays completely overlooked, that was given to California 796 days earlier (we come back to the NV of *on the wing of abominations* in Daniel 9.27): on January 21st, 1962, the snow covered for the last time Downtown Los Angeles. One thing to know here is the literal translation of *snow in Los Angeles* in Hebrew, *Sheleg BaMal'achim*. The NV of this words is 476, which is also the NV of *her iniquity has been removed* in Isaiah 40.2, and we can see in the wintry scene the last declaration of God's forgiveness for the City of the Angels as part of the Golden State and the West Coast, declaration followed, two years later, by the March 27th, 1964 warning in Alaska (interestingly enough, William Branham began prophesying about LA in 1964...).

At this point, are we again to add 21,158 days to January 21st, 1962? One could object that the identical period that had begun on April 23rd, 1906 wasn't finished yet. To address this objection, let's go back to the phrase *her iniquity has been removed* in Isaiah 40.2. The Hebrew text, here, can also be translated *a coexistence has been wanted*, which means that the two periods considered have indeed to *coexist*, the second one beginning before the end of the first one.

That being said, January 21st, 1962 and 21,158 take us to December 26th, 2019. It confirms my other works and research coming to the conclusion that at this date a *flood-like* event –the great shaking of Haggai 2.6 and Hebrew 12.26– will affect not only California and the USA, but the planet as a whole.

By the way, the most powerful earthquake of 2018 (magnitude 8.2) was recorded on August 19th in the Fiji Islands region. From this date to December 26th, 2019, there is 494 days and, in Daniel 9.27, 494 is the numerical value of the Hebrew words for *even until a destruction, one that is decreed...*
